

I am writing to complain about the disgraceful behavior and bad judgement exhibited by Sinclair Broadcasting regarding the possible showing of a clearly partisan show they are going to be running on all of their stations. I think it gives freedom of speech a bad name. It is not right for a public broadcasting station to campaign for or against any candidate. It will do nothing but continue the degradation the is already happening regarding freedom of speech in this country. The partisan selective censorship being practiced by the FCC is outrageous. It must stop immediately.
